VOLUME CONTENTS

Volume 160 Nos. 1–2

ARTICLES

ANDO, H., T. NOGUCHI, M. NAKAGIRI, A. MIYASHITA, Y. YAMASHITA, K. NARIAI, and H. TANABE / Evaluation of the JNLT Site 183

ANGEL, J. R. P. / Recent Progress on the Columbus Project and the Mirror Laboratory Program 55

BABA, N. / Spectral Speckle Interferometry 373

BARBIERI, C. / The Galileo Project. A 3.5 m Italian Telescope Facility 119

BARR, L. D. / The U.S. National 8 m Telescope Project 71

BECKERS, J. M. and F. MERKLE / Adaptive Optics for Large Telescopes 345

BECKSTETTE, K., M. KÜCHEL, and E. HEYNACHER / Large Mirror Figuring and Testing 207

BOSCH, I., D. MOURARD, and A. LABEYRIE / Can the Optical Very Large Array be Coupled with the JNLT? 355

CANNON, R. / Some Comments on Large Telescope Astronomy in Britain and Australia 275

CHILI, A. / Infrared Interferometry with Single Telescopes 369

ELLIS, R. S. / The UK Large Telescope Project 107

ELLIS, R. S. / David Brown (Obituary) 393

ENARD, D. / Concept and Status of the VLT Project 45

GILLINGHAM, P. R. / A Means for Improving Drives 225

HALL, D. N. B. / Characteristics of Mauna Kea Relating to the Japan National Large Telescope 243

HALL, D. N. B. / Summary of the Symposium 387

HAYAKAWA, S. / Cosmology and Large Telescopes 7

HAYASHI, S. / Cooperation Aspects of International Observatories 263

HILLTNER, W. A. and S. A. SHECTMAN / Progress of the Magellan Project 103

HOENESS, H. W., R. MUELLER, E. W. RODECK, and F. B. SIEBERS / Spin-Cast Zerodur Mirror Substrates of the 8 m Class and Lightweight Substrates for Secondary Mirrors 193

HÜGENELL, H. / The Design of the Central-Axis Reflector (ZAS) 231

ISHIGURO, M. / Submillimeter Interferometer 377

ISOBE, S. / Optical Interferometer between JNLT and WMKT 361

ITOH, N., Y. YAMASHITA, and T. NOGUCHI / Mechanical Structure of JNLT 165

IYE, M. / Active Optics Experiments for Thin Meniscus Mirror 149

ISHIGURO, M. / Submillimeter Interferometer 377

ISOBE, S. / Optical Interferometer between JNLT and WMKT 361

ITOH, N., Y. YAMASHITA, and T. NOGUCHI / Mechanical Structure of JNLT 165

IYE, M. / Active Optics Experiments for Thin Meniscus Mirror 149

KAIFU, N. / Radio Astronomy and Very Large Telescopes 27
KODAIRE, K. / Outline of the JNLT Project 137
KOGURE, T. and A. T.TOKUNAGA / Preface x
KOZAI, Y. / Welcome Address of the Director of the National Astronomical Observatory, Japan 3
LEE, T. J. / Operational and Technological Developments for UKIRT 249
LENA, P. and F. MERKLE / The Interferometric Mode of the European Very Large Telescope 363
MACK, B., D. HARMAN, S. ATKINSON, and C. GARCIA / A Progress Report on the Design of the 8 m Aperture Optical/Infrared Telescope 111
MAIHARA, T. / Infrared Instruments for JNLT 313
McLAREN, R. / Recent Developments of Canada–France–Hawaii Telescope 255
MANNERY, E. J., W. A. SIEGMUND, and C. L. HULL / The Performance of the Apache Point Observatory 3.5 m Telescope 269
MEDWADOWSKI, S. J. / Structure of the Keck Telescope – An Overview 33
MIKAMI, I., N. ITOH, K. MIYAWAKI, H. ANDO, T. NOGUCHI, M. NAKAGIRI, and E. WATANABE / Dome Design of JNLT 173
NISHIMURA, T. / Infrared Detector for Mid-Infrared Astronomy 325
NARIAI, K. / Fast Optics for Large Telescopes 159
ODA, M / How the SPACE Astronomy has Extended the Horizon of Astronomy 19
OKAMURA, S. / Optical Instruments for JNLT 297
SMITH, H. J. / A Decade of Cost-Reduction in Very Large Telescopes (The SST as Prototype of Special Purpose Telescopes) 123
SMITH, W. S. / Large Mirror Polishing and Figuring 215
SPANGENBERG-JOLLEY, J. / Large Mirror Fabrication of Low Expansion Glasses 199
TOKUNAGA, A. T. / Infrared Detector Arrays and Some Applications to Spectroscopy 333
WANG SHOUGUAN / Some New Astronomical Facilities in China 287
WATANABE, M., Y. AGEISHI, and K. NAKAMURA / Knowledge Engineering Application in the Problem of Supporting a Large Mirror 221
WOON-YING WONG and L. D. BARR / The Planning of NOAO 8 m Telescope Enclosure and Facilities 87
YAMASHITA, Y. / Finite Element Analysis of a Meniscus Mirror 145
